

Band information

Sunburn In Cyprus, based in Goettingen (Germany), was founded in 1998 as an avenue to produce electronic music outside of members regular musical work.

Beside remixes for different artists, Sunburn In Cyprus focuses on many different genres such as triphop, lounge/chill-out, dub/reggae, house and dance – mixed with catchy pop vocals and jazz influences. Their fanbase includes now listeners all over the world, especially in Australia, Germany, UK, Canada and the USA.

Their songs have been not only released on their own Cdsbut also on compilations in the UK, Italy and others. As well as some songs has been used on video and film soundtrack (among others USA, Austria and Deutschland).

Originally just a studio/remix project with several/changing members, Sunburn In Cyprus presents their songs live on stage in clubs and at festivals in Germany since early 2005. Songs from previous CDs and unreleased tracks are interpreted live also with a rock touch.

Sunburn In Cyprus live players

Christian Villmann – drums
Bianca Dietrich – vocals
Tim Jesinghaus – guitar
Ingo Quentin - keyboards
Ulli Conrad – bass, loops

(players are subject to change)
